Shebin el-Kom, January 30. For a long time past the traffic to Tantah on the Ashmoun-Tantah line has been very heary, especially on Fridays and Mondays, when large numbers of the follabeen visit Tantah for the purpose of präying in the famous Mosque of Stid Ahmad al-Bodawi. To provide for this numbers of the follabers with Tathah for the purpose of prizing in the famous Meague of Sidi Ahmad a Bedaw. To provide for this heavy traffic, the Administration in the begin-ing of the year put on a 3rd colass special train. This was a great boon to the inhabitants or this province also as it gave them an oppor-tunity of joining the express to Cairo and Alexandrias at Tatath at 5 am. Por some reason or other, this train has now been discontinued, and in its place an engine and three carriages have been added to the ordinary train which leaves Admoon as 8.40 a.m. for Tantha at 0 art. We would draw the attention of the Administration to this matter, and engine a special train starting from Ashmoon at 6 am in the moring and vetaring from Tantah at 4.40 p.m.

### THE STREETS OF ALEXANDRIA.

One of the first things that strikes a visitor to this country as the remarkable beterogeneous-ness of the dwelling bueness. Unlike the condi-tions prevaining in European countries, houses are built, each stor its own manner, with a total disregard of harmony with their sur-roundings, and the result is anything but conducive to the beauty of the twen as a whole. It is therefore with undiqued a attitation that we hall a notice of the Alexandria Attinizion that which will be found in axother older any which will be found in axother older of direction of a much desired righter column, and which, we think, constitutes the first step in the direction of a much desired righter.
